More than 600 ATM users may be still at skimming risk

KOLKATA: More than 600 customers who tried to withdraw money any time between April and July at any of the three affected ATMs — Canara Bank's at Golpark, Punjab National Bank's on Park Street and Kotak Mahindra Bank's on Elgin Road — still run the risk of being conned.Kolkata Police has sought information from the National Payments Corporation of India, an agency tasked with maintaining data on such transactions, to try and ascertain the number of those affected. The cops fear the figure might be much higher than reported.Initial probe so far has shown that at Canara Bank alone, debit card data of around 275 customers have been compromised. Of them, around 42 reported losses. Even conservatively, this number across three banks would be over 600. "The Canara Bank ATM was most likely skimmed on April4. The first withdrawals by the gang were on July 22. Given that this was an ATM attached with a branch, the 275 number might go up," said an officer. 'HOTLIST CARDS'Number of duped people may go upThe officer said they suspected the number of duped people could go up for

the other two compromised ATMs.

Canara Bank has advised several customers to hotlist their debit cards. "While blocking might not always be necessary, a PIN change is advisable for all such customers," said a bank security expert.

"The two Romanian nationals — Dumitru Calin and Operea Ovidiu Simion — have claimed they were merely smaller players who got a 15% to 20% cut for each successful transaction. It is clear that a third person — most likely their handler — had accompanied them. We even have footage supporting that. A passport of a third gang member has been recovered from a rented apartment in Delhi's Hauz Khas. Add to it the fact that thetwo hotels at Kasba where the two accused put up has told us that around 10-12 Romanians had camped with them in these four months. This only increases the probability of the gang operating on a much wider scale," said police.It is also likely that the data was processed by their gang leaders themselves, the foot soldiers merely carrying out groundwork. It's clear that with these arrests, the gang may be lying low for the moment but can attempt to operate from another city, as was noticed by.
